BACKSTORY

Although christened Percy LaRue, Pesky was given his nickname before he could walk. Raised on the east side of Chicago, Pesky lived with his crack-addicted mother and younger brother, Elias. At an early age he got as good at hiding the truth as he was at shop-lifting food. Pesky dropped out of high school at 14 and spent the next few years hustling to make enough food for him and his family. A local thief - Fat Fingered Frankie - took a liking to the young boy and helped him up his skills as a petty thief.

As he grew, Pesky found he had a way with the ladies who loved his 'bad boy trying to be good' shtick almost as much as their boyfriends hated it and although Pesky was able to avoid being sucked into a gang, he never made it beyond being a petty criminal who had multiple run-ins with the law. After the death of his mom, he felt increasingly responsible for his younger brother. Then the virus came.

Pesky still feels Betrayed by Marty Kaczynski, who he had partnered with early on as he tried to get out of Illinois and head south. Kaczynski had beaten him while he slept and stole his horse and supplies, leaving Pesky for dead. Pesky doesn't know if Kaczynski is still alive or not, he just knows that he still dreams of what he'll do once he catches up to him.

After Marty left him for dead, Pesky's self-preservation instinct is now constantly in overdrive and he has one single imperative driving him - no matter what it takes or who you have to throw in front of a bullet: Stay Alive!
